- ✓ Boiler Plant Replacement
- ✓ RTU & Split System HVAC Replacement
- ✓ Destratification Fans
- ✓ Unit Ventilator Replacement w/Addition of Cooling
- ✓ Window Film

ANNUAL ENERGY COST SAVINGS

\$611,119

Willingboro Township School District (WTSD) selected DCO Energy to develop and implement an Energy Savings Improvement Program (ESIP) project while also in the planning phases of a referendum. DCO Energy coordinated with WTSD's architect of record (AOR) to bring as many of the District's top priorities out of the referendum and into the ESIP. Some of the top priorities included a complete replacement of the HVAC system at the Bookbinder School with new unit ventilators, boilers, and rooftop units for the office spaces and gym, unifying the Energy Management System across the twelve (12) buildings to one (1) manufacturer, District-wide LED lighting upgrades, and converting the PSE&G owned utility pole parking lot lighting to LED.

LOCATION

440 Beverly Rancocas Road, Willingboro, NJ 08046
